A HILL AVALANCHE STARTED

MINIT-NINE CAR LOADS OF NEW YORK DIMOCRATS FOR CHICAGO.

Twelve Hundred Tummany Men and 850 from Kings County, Representing the solidest Democratic Vote in the United States-Dely Nine Cars Ready for Kings, Sixty-nine ar loads of tried and true Demograts left this city in special trains for the Chicago Convention yesterday. Fifteen hundred Tammany Hail and Kings county Democrats will be poured into the Windy City this evening to tell the Democracy of the nation that the Democracy of the Empire State has but one childe for President, and that he is Sepator David B. Hill.

The first bair hundred of the Conventionbound Tammany men left the Grand Central Station in two special trains yesterday morning. It consisted of delegations from the

Thirteenth, Seventeenth, Eighteenth, Nineteenth, Twentieth, Twenty-first, Twenty-second, Twenty-third, and Twenty-fourth Assembly districts. The men who have made many similar journeys had not hampered themselves with luggage, but were in light marching order, as becomes old campaigners. Neglige shirts, travelling caps, and dusters, with light gripsacks, completed the outfit of most of them. No badges were displayed, but there were plenty aboard the cars which will be

displayed on the breasts of the braves before their arrival in Chicago. These are modest bits of red ribbon with the words "Tammany Hall" in nickel-plated letters attached. Warned by the sad experience of the Republican pligrims to Minneapolis, the Tammanyites had provided an abundant store of provisions. True, the better part of the solid provisions consisted of ice, but it was explained that this made the liquid provisions more palsable. The smoking and toilet compartments e every car were filled with boxes, barrels,

baskets, and tubs. Provision has been made to replenish the stock at the several stopping places along the route, so that the travellers may not suffer as did their Republican friends.

The first section, which was in charge of Senator George W. Plunkitt, did not start until9:40 o'clock, or forty minutes after schedule time. At that time there were still several boxes and barrels of refreshments for the Thirteenth district delegation on the platform. but it was all got aboard the moving train by a great deal of hustling on the part of Port Warden Louis Munzinger's mon, and a congratulatory shout went up from the train as the last bit of precious baggage was safely stowed on the car platform.

Every man on the train was supplied with a ticket something less than two yards in length with coupons which guaranteed him lagth, with coupons which guaranteed him passage, meals, and ledging for the round rig. On Conductor Plunkitt's train were the delegations from the Thirteenth, Seventeenth, Eighteenth, Twentieth, and Twenty-first district, among whom were Port Warden Louis liunzinger, Ex-Judge Edward Browne, Chas. P. Anderson, A. E. Hull, Adolph Hernann, D. M. Simpson, Louis Bauer, Judge Fitzsimmons, ex-Assemblyman Stephen J. O'Hare, James P. Kenting, Commissioner of Accounts Daly ex-Senator John J. Culien, Assemblyman D. F. Martin, Alderman Jacob C. Delancy, Henry Stewart, Subway Commissioner Storm, Quarantine Commissioner Allen, Assistant District Attorney Weeks, William J. Duggett, John M. Tracy, Hugh Donnelly, and John Slattery.

John M. Tracy, Hugh Donnelly, and John Slattery.
The second section of the train, which like the first consisted of eleven Wagner sleeping ars, was scheduled to leave at 10 o'clock, but did not depart until forty minutes later. It was in charge of Police Justice Paniel F. McMahon, and was quite as well stocked with refroshments as the first. On it were the delegations from the Nineteenth, Twenty-second, Twenty-third, and Twenty-fourth Assembly districts, and among its passengers were: Mayor's Constant of the control of the co third, and Twenty-fourth Assembly districts, and among its passengers were: Mayor's Condential Clerk Georgo E. Best, Police Inspector McAvoy, Warden Dunlap of Ludlow street all, Alderman Harris, Assemblyman Connelly, William E. Stillings, Building Commissioner Brady, Wiskinkie Donnegan of the Tammany Society, Alderman Hart, Charities Commissioner Sheeby, Assemblyman O'Dair, Laupanes Delmour, Jacob Ruppert, Civil Justice McGean, Water Furveyor Burke, Police Justice Meide, Assemblyman Weister, Alderman Railey, Bernard J. The Fourth district delegation, led by expected Commissioner Fitzpatrick, were badges of red and blue. All of the Nixth and Iwelfith district men were white high hats. Harry C. Miner, who was in charge of the first special, next to the men who were disposing the refressiments in the several cars, was the businest man in the denot. He was busiling about all over the big depot, and got very red in the face in his effort to get order out or the general chaos. The conductor for, he railroad company started the train without as much as a "by your leave" to Mr. Miner, and it was only by a good run and a sprightly leap that he caught on.

Helroshments here were even more abundant than at the Grandt tentral Station, When the compartments, platforms, and vestibules were filled to their utmost capacity with boxes, barrels, hampers, and thus of ice, bottles of beer were tossed through the windows to willing hands, but even then it couldn't all be got aboard, and many bottles were uncorked on the station platform and distributed to the stay-thomes at prevent its going to waste. With about a dozen trying to mount the steps of every moving car, it looked as if some would surely be left, but the more agile ones vaulted into the windows, and not a man failed to get aboard. County Clerk McKenna indulged in an undignified race with Section D nearly the entire length of the deput before he was finally pulled aboard. Excise Commissioner Leicester Holme also had a close call, but his training in the N. Y. A. C. served him in good stead. He made a flying leap over a bagging truck and caught the rear platform of his departing train.

Among these on Conductor Miner's train were: Register Fitzgeraid, Supervisor William J. K. Kenny, Deputy Sheriff Darlel E. Finn, Assemblyman Dufty, Alderman Fivnn, ex-Alderman McCarthy, Joseph I. The Rings county delegation found that they had a grievance when they arrived at the station by the annex terry from Brooklyn. It was nearly noon when Grand Marshal John Delmar surted them in column from in front of the Thomas Jefferson, in Court square, Brooklyn, and as it marched to fehermer-horn street, headed by a band of thirty pieces, cheers went up from the spectarors, who were packed in a solid mass, along the sidewalks. The battalion was divided into twenty-six companies representing the various wards. A finer-locking or more determined bedy of Democrats will not be seen at the Convention. All wore dark clothes, light bats, and lightbrown silk gloves, and carried silk unbrelias. The delegation received a continuous greeting on the march through Scheimeroorn, Ginton, and Joralemon streets to the City Hall square, where a hait was taken until a photographer had taken a picture. Mayor Boody reviewed the delegation from the city Hall steps. The line of march continued through Remsen street to Henry to Fulton to the annex is at alongside the ferry. The home of ex-licition in Hemsen street, was decented with flags, and Mrs. McLaughlin received a marching salute from the departing delegates. Mr. McLaughlin will not attend the Convention in Chicago, but his lieuteannix will act upon life advice. Mr. MeLaughlin, it is well known, is carnestly in favor of Senator Hill's nomination.

The counsellor declared that they had a contract with the railroad company calling for twelve ears, and he threatened to sue the company on behalf of the organization when he returned from Chicago. The Brooklyn specials were detained behind schedule time by the controversy, and the station master threatened to move them into the yard and side track them. This threat was encetual in getting the disgranted kinas cainty men aboard, and they were sent on their way growling at their accommodations.

Police Commissioner John C. Sheehan and his wife left for Chicago on the regular Columbian express at 2:131 yesterday afternoon. President of the Police Board, Mayor Grant, and John M. Bowers will start at 10 o'clock this morning.

"I remain at home," said Mr. McLaughlin

last evening, "for several reasons. In the first place, I have important business matters which require my personal attention. Then, too, I'm not in the habit of attending National Conventions. I have not been a dalegate to one since 1830, and the only one I have attended since then was that at Cincinnati in 1880. I'm getting to be an old man, and dislike to subsect myself to the discomforts of a conventioneity. So far as the political interests of Kings county are concerned, they will be as carefully conserved as if I were at Chicago, for nearly every active Democratic leader has gene on to look after them."

On a velvet stretch of sward under a noble linden tree in Ardsley Park stands a square granite pedestal that supports an ancient rust-encrusted sun dial, set upon a round block of marble on the top of the pedestal. Hewn in the marble around the edge of the dial is the inscription. Situated on a winding country road decked with pretty villas, it is many respects the most homelike and attractive residence in a region where handsome country places are clustered in picturesque groups. Just at this particular time there is no more interesting spot on the Hudson's banks, for everybody in the country roundabout is speculating whether "Inanda" is not to be the summer dwelling place of the next Secretary of State. It derives another element of interest, too. from the fact of its close proximity to the anot where, in the old revolutionary days, stood the tavern where Elizabeth Flanagan,

Election of Field Officers for the New First Regiment of New Jersey. The First Brigade of New Jersey's National

Guard has never had a more exciting two weeks than the period which closed last evening with the election of field officers for the new First Regiment, in the armory of Company G in Hackensack. The death a short time since of Brig.-Gen. Ductley S. Steele, commanding the brigade, left a vacancy which Cols. Campbell and Barnard of the old First and Fifth Regiments and Col. Wanser of the old Fourth Regiment aspired to fill. There was a general belief that Col. Wanser would secure the honorable prize, when Major-Gen. Plume's order reorganizing the brigade appeared to place a doubt upon the result. It was asserted that the reorganization was made for the purpose of defeating Jersey City's Republican Mayor, and to make a pretty sure thing of it

for Col. Campbell of Newark.

After there had been a thorough canvass of the situation, appearances were strongly in favor of Col. Wanser, and the organization was reorganized so as to change the formation of the new First Regiment, which, under the first order, was to be composed of the First Battalion of Paterson, Second Battalion of Bergen county, Company B. old Fourth Regiment, Passaic, and a company at Dover. Under the

county, Company B, old Fourth Regiment.
Passaic, and a company at Dover. Under the second order the regiment will comprise the First, Second, and Third Battallons, the latter of Orange, and Company B of Passaic.

The officers of these organizations have been engaged in the formation of all manner of combinations during the past week, the leading object of which was the selection of a Briganization of all manner of combinations during the past week, the leading object of which was the selection of a Briganization of Heat of the selection of field officers. Lieut-Col. Muzzy of the First Battallien was generally agreed upon for Colonel, but he wanted Major Beam as his second in command, with Capt. Derrom of Passaic for Major.

This arrangement shut out the Bergen County Battallon, giving everything to Passaic county, and it also shut the door on Col. Warser's channes for the Generalship. Lieut-Col. Muzzy then made overtures to the orange Battalion, with which he and his command were only on terms of courtesy as prescribed by enforced military cliquette. It is said that Lieut-Col. Muzzy was even willing to make a sacrifice of himself in the interest of Mayor Wanser by permitting Lieut-Col. Suyder to assume the Coloneley of the First Regiment in return for votes enough to place the star on the Mayor's shoulder. Such an arrangement would have its compensation for the Paterson Battalion commander in the leading place on the brigadier-General's staff; the Lieutenant-Colonel and Major would be saved to Passaic, and the Bergen county "insyscels," as they are avied by the Patersonians, would receive nothing but orders.

As an offset to this, Capt. Decker of the

by the Patersonians, would receive nothing but orders.

As an offset to this, Capt Decker of the Paterson Battallon, senior Captain in command of the new lirest Regiment, who is not on terms of friendly relationship with Lieut.-Col. Muzzy and Major Beam, sought to make himself Lieutenant-Colone' of the regiment, and called in the aid of the Bergen county men. Capt. Becker is a Campbell advocate for the Generalship, and he offered to layor Capt. Engel of Hackensack for Major in return for the Second Battallon's support. Capt. Engel declined in 'avor of Capt. Currie of Englewood.

when the Muzzy movement on Orange was exposed, Capt. Decker and the Bergen officers made a flank attack on the same place, the object of which was to give Lieut.-Col. Snyder the Coloneley and Capt. Decker the Lieutanant-Coloneley. It was believed that Orange would rather combine with the "barnyard battalion," with which it always affiliated, and thus elevate Col. Campbell to the Generalship, rather than go with Paterson and promote Wanser.

thus elevate Col. Campbell to the Generalship, rather than go with Paterson and promote Wanser.

There are twenty-nine votes in the regiment, the Orange buttalion being short one officer. Bergon county has nine votes and Fassale county nine. Of these twenty-nine, on a liable to uninfluenced by deals, Co. Campbell is sure of eighteen. Hence the formation and shattering of slates that has been going on with a bitlerness that could not be outdone in the most flery political struggle.

Col. Marvin Dodd, Assistant Adjutant-General, presided. Lieut. Col. John A. Miller, Judge Advocate-General of Division Staff, was Secretary. When the officers arrived in flackensack last evening it was learned that a new arrangement of the list of proposed flediditeers had been toade. This result was attributed to the influence of tol. Joseph W. Congden foft Paterson, who said he was acting in the interest of harmony. This ticket was elected:

For Colonel, Lieut.-Col. James Vreeland Morre, Second Battalion; for Lieutennat-Colonel, Lieut.-Col. Samiel V. S. Muzzy: for Major, Capt. Andrew Derrom, Jr., late Company B. Fourth Regiment, Passale. The ciection was by a uniform ballet of 21 votes for the winners and 8 for the losers. The camplimentary votes were: For Colonel, Lieuternat Colonel, E. H. Sawder. Orange: for Lieutenaut-Colonel, Lieutenaut-Colo

it is explained and there will be a new deal for the other field offices, not at present divulged.

BRINGING HIS SHEAVES WITH HIM. Mr. Redmond Returns to Ireland With \$5,000 for Campaign Expenses.

John E. Redmond, the leader of the Parnellite forces in Ireland, who arrived last Sunday on the Etruria, salled yesterday on the same steamer. He did not prolong his stay in this city because he wanted to get back for the general elections, which are to be held in a few weeks. John Wyse Power of the Irish Independent, the Parnellite organ of Dublin, went tack with him. Edward O'Flaherty, D. A. Spelisser, and other irishmen accompanied Mr. Redmond and Mr. Power from the Holman House to the Cunard pier. Mr. Redmond's stateroom was nearly filled with Howers.

"I am very much pleased with my trin to New York," said Mr. Redmond. "The reception I received here was centainly a warm one. There seems to be little probability of anion among the contending factions in Ireland, but, of course, I hope harmony will prevail. I do not believe the statements cabled to this country and trinted in this morning's papers that Mr. Gladstone has changed in his plans in regard to home rule. The protest of the Ustarmen against home rule. Hernly believe, will have no effect on the Hiseral party. That protest is merely the voice of the loyalist minority, who have always been violently opposed to home rule."

Mr. Redmond brings to Ireland \$5,000 which was contributed by the friends of the Farnellites in this city. It is to be used by the Parnellites in the campaign in Ireland. Independent, the Parneilite organ of Dublin.

RAN DOWN A MURDERER.

He Shot a Man at a Merry-go-round and Tried to Kill Two Others,

NIAGARA FALLS, June 18 -- A merry-go-round has been in operation in this city near Pros-pect Park for some time, the business being run by two brothers named Herbert and William R. Wenver, Last night, about 10 o'clock, a negro who was on one of the horses slapped William Weaver's face. In the altercation which followed Herbert Weaver came up to take his brother's part, and knocked the negro off the horse. An unknown negro in the crowd jumped forward, pulled a revolver, and fired at Herbert. The ball hit him in the left temple, but glanced off. William grabbed the man, and a tussle ensued in which the negro shot William in the breast, the ball penetrao'clock. In the excitement the murderer escaned. Several citizens got guns, pistols, and clubs.

and started to find the murderer. Policemen were stationed at all the suspension bridges crossing the river. Policeman Malony, soon after midnight, saw a negro on the corner of First and Falls streets. He jumped for him and put handcuffs on his right wrist. On the way to the station house the negro pulled a revolver from his pocket, pushed it into Malony's face and first. The bullet just missed the beliesman's head. A struggle followed, and the negro tore himself loose from the officer's grasp and started down the street.

Malony started in pursuit, firing his revolver as he went. At the American entrance to the new suspension bridge Policeman Bancker was on duty, and about 1 o'clock he saw a man standing at the side of the gate. He noticed that he had a handcuff on his right hand. The negro again drew a revolver. Benacker crossing the river. Policeman Malony, soon

that he had a handeuff on his right hand. The negro again drew a revolver. Benacker seized his arm and wrenched the weapon out of his grasp; it flew across the room and landed on the window sill. The negro sprang after it, and Daniel Deitrich, an officer on the bridge, turned in to help Bonneker. They conquered their prisoner quickly.

The news of the capture spread, and the men who were out scatching for the murderer made threats of lynching. The negro refused to give his name this morning until he was arraigned. He told Police Justice Piperthat he was James II. Lee, and that he had only come to the city last night.

The crop prospects in the South are exceptionally good, although it is too early in the year to read the future of the cotton crop. There is a very general feeling of hopefulness that the worst of the commercial depression in the South has been passed, and that the fall of the year will see a material improvement in business.

Becausers Hubbekcoper and Foster were both in the city yesterday, and had conferences with Messra. Drexel Morgan & Co. The general offices of the company have been removed to Washington city from Atlanta, by order of the receivers.
